2nd September 2022

Donna Tickell Memorial 1500 metres

We held our final meeting for the season, The **Donna Tickell Memorial**, which is a sealed handicap 1500m event out at the refurbished **Woodvale Recreation Reserve**.

Thanks to Greg Hilson for the dedication for the day. The day started out cold and windy, leading to the athletes to feel slightly reserved about the conditions, however as race time rolled around, the wind had dropped off leaving us with perfect running weather. The sealed handicap leads to a little congestion at the start but the racers soon sort themselves out.

An absolutely blistering pace was set by Logan Tickell finishing almost a minute before the second finisher. We also hosted our club presentations for the year, it's always good to see the athletes being rewarded for their efforts throughout the running season.

Winners: Guillou family Peter Hayes and Bowe family

Thanks to everyone, athletes, sponsors and helpers alike helping to make this season, our first complete season in a number of years, a resounding success. Hopefully our athletes will make the transition to the track for the summer season and join us back next year for the 2023 cross country season.
